Waste Paper

Recycling will save you money! Over 90% of your waste leaving your business could be paper. Your company will be paying waste disposal fees when most of your rubbish is recyclable.

If we collect your paper then you can be sure it will be recycled. Recycling is sound environmental business practice. It also reduces waste and pollution, saves energy and prevents deforestation. MGM is a registered waste carrier with the Environment Agency, registration No. ENW/031818/CB.

MGM offers you...

- *A reliable service. We promise to treat your company's paper responsibly and lawfully in relation to duty of care legislation. This can also tell you how much paper we have collected*
- *We can collect on a regular or occasional basis, whichever suits your business' needs*
- *We can help you establish a system which is cost effective for your company and allows the volume of material to be monitored in relation to recycling targets*

If you wish to deliver to us, all paper will be recycled free of charge at our site in Keynsham.

Confidential Waste Destruction

If your company has material that is confidential it can be destroyed in a way that ensures security. As well as paper, we can destroy other materials such as video and audiotapes, computer discs etc.

You are welcome to inspect our shredding facilities in Keynsham. This will reveal to you how the materials are processed. Please call prior to visit.

MGM offers you...

- *Total security in collection, transportation and destruction of material*
- *Polypropylene sacks with security ties, supplied free of charge*
- *Our site has 24 hour surveillance*
- *We will issue a Certificate of Destruction, on completion, if requested*
- *Copies of surveillance discs can be supplied of the shredding process if requested*
- *All paper is shredded and recycled on site by our own staff at Keynsham*
- *Customer monitoring room which allows individuals to view their material being shredded, thus ensuring total peace of mind*
- *Independent mobile unit for on-site shredding and disposal*
